

### [Welcome to join us at EPIC 2020 final conference in Brussels.](#)

**National Technical University of Athens (NTUA) - leader of the third Work Package: "Assessment of the internal and external bioenergy resource potentials and bioenergy flows".**

During the actions of WP3, new methods and techniques were developed, which are now on their way to be published, as Proceedings, into two international conferences.

A full paper is also planned to be published in the near future, but is still in earlier stages.

One could find these articles using the following citations: [more >>](#)

### **EPIC at SymCity Conference in Norrköping, Sweden**

The 27<sup>th</sup> and 28<sup>th</sup> of January the conference SymCity was arranged by EPIC partner University of Linköping and the Region of Östergötland, in Norrköping (Sweden). The theme for the event was Transformation, and took a wide scope of the transformation of cities from where we are today to where we need to be tomorrow. One of the main focuses was Industrial Symbiosis, since it plays an important role in future cities. EPIC partners were represented in presentations, panel discussions, and the project also held a workshop on the theme "Barriers for Industrial Symbiosis" which built on results from another workshop at the conference Urban Magma in March 2015 [more >>](#)

### **Open dialogue with citizens and policy makers for a Port Vision in Mantova**

During the last three months; Epic partners in Mantova have held several open events to collect input from local stakeholders to outline a joint vision, between the city and the industrial harbour, for a sustainable development of the port of Mantova.
